For the benefit of suffering humanity, I deem it only my duty to give this unsolicited testimony in favor of Swift's Specific. My wife has been afflicted with Eczema from infancy. We tried every known remedy, but to no avail. She was also afflicted with a periodical nervous headache, sometimes followed by an intermittent fever, so that her life became a burden to her. Finally I determined to try Swift's Specific. She commenced seven weeks ago. Aftertaking the first large bottle the disease seemed to increase; the burning, itching and inflammation became unbearable. She, however, persevered in the use of the medicine. After taking the second bottle the inflammation began to subside. After the third bottle the inflammation disappeared, and sore spots dried up and turned white and scaly, and finally she brushed them off in an impalpable white powder resembling pure salt. She is now taking the sixth bottle; every appearance of the disease is gone, and her flesh is soft and white as a child's. Her headaches have disappeared and she enjoys the only good health she has known in 40 years. No wonder she deems every bottle of S. S. S. is worth a thousand times its weight in gold.

Any further information concerning her case

The following letter from State Controller John P. In his retirement, after having worn the highest civil and military honors attain able on earth, he illustrated the simplicity, modesty and dignity of republican citizenship. Camp Reminiscences.

The military camp at Santa Cruz was 1 certainly a grand success, so far as the drilling of the National Guard in military Byron Jackson, of that city, for exhibiti could not have been held in a more lovely spot, and there is a movement on foot by rounds and present them to the State for nnual encampment purposes.

During the encampment there was onsiderable target practice engaged in, nd it was a noticeable fact that Company of the First Artillery Regiment, on arly every occasion came out victorious The following scores were made by ex-Captain White, of Company G, and Major Rivett, of Colonel Sheehan's staff. At a friendly contest the following score were made : Lieutenant Sheehan, Compan G, 43; Lieutenant Flaherty, Company 6 41; private Kunz, 40; private Adriance Company G, 39; Lieutenant-Colonel Guth-ie, 40.

The finest quartet in Camp Stoneman was that organized by Captain Stevens, of Company A. It consisted of Sergeant Miller, Corporal Kemitzer, privates Desmond and McCaslin. On the way home they sang at Lathrop and Stockton, at the latter

That the citizens generally in Santa Cruz tried to extort, by charging exorbitant prices, cannot be said; but that it was genrally done is apparent from the number ersons who now come forward and tell low they were charged. General Cadwalder was charged \$10 for being driven in ack to General Turnbull's tent, a distance f two miles. W. R. The Major stated that the room was his wife's and he thought a little rough and tough that he should have to pay seven dollars for sleeping with his own wife two nights. A gentleman went into a restaurant on Monday evening and got ham and eggs and a cup of coffee for fifty cents. The next day he was charged fifty cents for the same meal and on Wednesday the price advanced to one dollar. All the fifteen-cent barber signs in the city were taken down, and the most

J. G. Helland once wrete:

"It is every woman's duty to make herself pleasant and attractive by such raiment and ornament as will best accord with such style of beauty as she is To dress we'll, becomingly, even richly if it can be afforded, is a woman's duty. To make the dress the exponent of personal taste is a woman's privilege.'

The eminent author might have added:

How much a person can afford to spend for dress depends very much upon where they buy. In making purchases get as near the fountain heads of supply as possible. Generally speaking, it is the largest merchants who have the greatest facilities for getting what is newest and best in dress, and who offer customers the fullest assortments. A large trade comes only as the consequence of certain advantages, and is a business sign which should be thoroughly investigated before being ignored.

Added to this are the advantages presented by our store in having buyers constantly in the leading markets of the country; a large trade through the mails which indirectly lowers prices by increasing the amount of our purchases, and lastly, the protection and just treatment of customers insured by our methods of business.

Can any one afford to neglect the benefits which such an aggregation of advantages insure?

CALIFORNIA. Decision in the Montgomery Avenue Bond Case.

SAN FRANCISCO, August 24th.—The fa-mous case of Carl Liebeman vs. the City and County of San Francisco, known as the Montgomery avenue bond case, was decided in the United States Circuit Court this morning by Justice Field, of the United States Supreme Court. Justice Field's de-cision is in favor of the city and county and against all holders of bonds. The case was an action to compel the city and county to pay interest on coupons attached to bonds for judgment; that the coupons are valid obligations of the city and county for interest at 7 per cent. per annum, to be thrown through the window. The loss paid from a special tax, to be annually paid according to the provisions of the Act of the Legislature. The suit arises out of the opening of Montgomery avenue and the R. A. Gantenheim was damaged \$100; J the Legislature. The suit arises out of the opening of Montgomery avenue and the condemning of private property for that purpose. The street was opened and bonds of the city and county were issued by the Board of Public Works, comprising the Mayor, Tax Collector and Surveyor of the City and County of San Francisco. These bonds were issued to bonds were issued to property-owners, who were damaged by this public improvement. The decision adds that the bonds are not obligations of the aty and county, as they were issued by the Board of Public Works, who were not authorized agents of the city

and county.
